

PD-110

Pneumatic Post Driver
Part No. 070014

Pneumatic • Hydraulic • Gasoline
Professional Grade Tools

The Rhino PD-110 Pneumatic Post Driver combines easier handling than an equipment supported driver but has a slight advantage over the PD-55 in driving speed and heavy soil tolerance. Plus, the PD-110 provides better soil stabilization when driving the post at a deeper soil level is required. The PD-110 takes post driving capabilities to the next level. It is suited for driving 2" to 4" pipe and tube, structural forms, pin piles, dock piles, and 4x4 wood.

- At 109 pounds, with a 4" Alloy Steel piston, the PD-110 provides better handling in tough sites.
- Delivers up to 1700 blows per minute, and capable of driving a 2" O.D. post, ten to fifteen feet deep.
- No additional equipment required. Can be lifted by two people.
- Additional driving options possible with easy bolt-on adapters
